This form should be reviewed at the final evaluation meeting. The completed form will provide an official record of your practicum or internship experience. Each master's degree student should have significant supervised experience in each of the following areas over the course of all practicum and internship placements completed (but not necessarily all areas in every placement). Please describe your experiences in each area during the past semester.

1. **Assessment** (identification of client/consumer needs; service and treatment planning; assessment interviewing; administration of psychological and vocational tests, assessment devices, and systems; and interpretation and utilization of assessment information).

2. **Counseling**, including career counseling (include numbers of individual and/or group counseling sessions for which you assumed responsibility and number of clients).
3. Case management and service coordination (include number of clients with whom you assumed responsibility).

4. Job development and placement (training clients in job seeking skills; supporting client job placement efforts; job development, analysis, job modification, and job restructuring; labor market surveys; direct contact and consultation with employers).

5. Utilization of community resources (identify liaison activities and community agencies and resources that you utilized and/or came to know more about).
